- **App No. 1- Global Medical Training**

- *Description:* This RSO is requesting funding for medical supplies for their organization, such as scrubs and kits
- *Reviewer's Notes:* All items meet standards
- *Connection to Mission:* As mentioned earlier, these items are essential for our mission trips during breaks. Their significance extends to the entire club since not all members possess these items, and everyone must undergo training before embarking on one of these trips. Moreover, for eager students pursuing a career in medicine, this provides valuable practice and instills comfort in working with medical equipment and practice patients
- *Funding type:* Services
- *Amount Requested:* \$3,722.95
- *Amount Allocated:* \$3,722.95

- **App No. 2- La Fuerza Flamenca UIUC**

- *Description:* This RSO is requesting funding for dance shoes to use during flamenco workshops
- *Reviewer's Notes:* All items meet standards
- *Connection to Mission:* Our Student Org Mission is La Fuerza Flamenca UIUC serves to create a dance community where individuals can create, explore, and express themselves through flamenco dance, a highly expressive Spanish dance style. LFF is a dance group dedicated to sharing the art of flamenco dance with the UIUC community. In a celebration of all

individuals and their unique backgrounds, LFF creates art through classical flamenco dance while fusing other forms and dance styles into choreography. However, without the proper flamenco shoes, the fulfillment of our mission is constrained if members do not have the proper equipment to perform the dance style. Flamenco shoes are specific, as they are designed to make specific noises when moved in specific ways. Fulfilling this request will ensure that individuals who do not own Flamenco shoes can dance and perform as La Fuerza Flamenca will be able to lend and provide such equipment. This way, regardless of experience and knowledge, all wanting to will be able to learn Spain's Flamenco

- **App No. 4- Health Care Book Club**

- *Description: Application requests for books*
- *Reviewer's Notes: All items meet standard*
- *Connection to Mission: With the nature of our club being a book club we obviously need to provide books, and that is what we are requesting from SORF this funding cycle*
- *Funding type: Services*
- *Amount Requested: \$2,031.50*
- *Amount Allocated: \$2,031.50*
- *Administrative Adjustment: \$0.00*
- *Administrative Rationale: Administration deemed this personal benefit as there is no clarity on whether or not the books will be kept by members or by the organization.*

- **App No. 35- Student Academy of Audiology**

- *Description:* Student of Academy of Audiology are requesting funds for airfare and hotel to attend a conference closely relating to their overall mission
- *Reviewer’s Notes:* Their supporting documentation goes with their budget sheet and properly lists the conference dates, as well as navigable links and screenshots of plane tickets and hotel costs. Therefore, I recommend SORF funds it. All items meet standards
- *Connection to Mission:* The request for funding to enable members of the Student Academy of Audiology (SAA) at the University of Illinois Urbana-Champaign to attend the American Academy of Audiology (AAA) conference is intrinsically aligned with our organization's mission and purpose. SAA is dedicated to providing a collective voice for students in the audiology doctoral program, focusing on enhancing their rights, interests, and welfare as future professionals in the field of audiology. By participating in the AAA conference, our members are not just attending an event; they are actively engaging in activities that are at the core of our mission. These activities include promoting the profession of audiology, advocating for individuals with auditory and vestibular impairments, and gaining insight into ongoing education and research development. Participation in the conference also offers extensive networking opportunities, presentation of current capstone projects, and opportunities for collaboration outside of UIUC. This aligns with our objective of providing career advancement resources for our members. Additionally, the conference is a hub for meeting fellow audiology students from various regions, enhancing our goal of creating a supportive community among future audiologists. In summary, attending the AAA conference directly supports and amplifies the mission of SAA by offering our members comprehensive opportunities for professional development, community service, and academic collaboration

- App No. 45- **Roselle**

- *Description:* Chinese Traditional dance organization is requesting funds for rental space to host practices two hrs/ one day a week
- *Reviewer's Notes:* I recommend SORF funds as it goes towards their mission statement and based on supporting docs and lack of additional funding, 100% would be recommended
- *Connection to Mission:* As Roselle is a growing traditional Chinese dance group, we would use the funds to rent practice rooms necessary for our club to function. With a consistent practice space, we would be able to connect with each other more and do better for performances. As we hope to spread the love and beauty of Chinese traditional dance to more people on campus, this would greatly benefit our group

- App No. 55- **CHOOM**

- *Description:* Practice room space for dance group
- *Reviewer's Notes:* Necessary to club purpose
- *Connection to Mission:* The fund requested will generally pay for the rental rate of rooms that are used for weekly dance practice and dance workshops. By using the funds to book those rooms, our members will have the chance to meet with each other at least once a week and enjoy practicing choreography together. While dancing, members can have a place to escape from academic stress, enjoy exercise with friends, and build relationships. This ideology directly connected to CHOOM's purpose that every member shared a common interest in dancing and also met new friends that met new friends and built relationships

during regular dance practice. Furthermore, the request fund will also use to book a room for CHOOM to hold a dance workshop that is available for welcoming all U of I students who are interested in dancing and can also have a chance to dance. This is also closely tied to CHOOM's optimal goal, which is to let everyone relax and enjoy

- App No. 95- **Lego Masters at UIUC**

- *Description:* Essential materials for use throughout semester and travel
- *Reviewer's Notes:* Essential equipment/travel
- *Connection to Mission:* We have three main pillars in LEGO Club, Education, Design, and Engineering. Our members can participate in one, or multiple of these pillars and we try to make it our goal to create a fun, safe, collaborative, and supportive community. We have separate requested items for each of these pillars, in the hopes that they can all be equally supported by the club, attracting many different people with different interests and skills.
- The Education pillar weekly holds an after-school program at two local disadvantaged schools to teach basic STEM concepts through LEGOS. We are hoping to receive SPIKE Educational LEGO Kits that use Robotics to engage the students, as well as transport money and prizes that we give out to the students on the last lesson of the semester. Our mission has always been to offer this program to the local elementary schools for free, and these items will ensure that we do so and continue to get younger kids interested in LEGOs and in the sciences. The Design pillar is hoping to get their custom LEGO designs funded, so that we can purchase the pieces required to bring our designs that have been electronically created, to life. Our team has been working and collaborating the whole school year, making an

inclusive environment for all members of our club who are interested. This will allow us to complete the goal our members have had, which is to bring their builds to life, which we are hoping to support through this funding. We are hoping to display these creations at BrickWorld Chicago, a convention which allows us to display our proud creations and make our members feel accomplished and fulfilled. Therefore, we are also requesting the funding for the tickets for our member to attend, and display at BrickWorld. The Engineering pillar is hoping for a similar funding as design, as they are also creating a custom build, but with robotic and electronic elements. The funding will allow them to create this and help continue to encourage a fun, creative environment where our members work towards a collective goal

- **App No. 132- Society of Women Engineers**

- *Description:* Asking for food in relation with RSO purpose
- *Reviewer's Notes:* Necessary to event
- *Event Description:* The Society of Women Engineers Diversity Committee, focused on diversity, equity, and inclusion, plans to host a cooking class at the ARC to foster a sense of belonging for students with different cultural heritages around the world. Students from afar who may relate to these foods as well as students who are looking to expand their understanding of other cultures are all welcome. Comfort foods could include congee, shepherd's pie, jollof rice, or pão de queijo, subject to change at the ARC cooking instructor's recommendation and budgetary restrictions. Participants will practice following a recipe, working in a team, sharing their experiences, and then eating and sharing the meal that is made. The Society of Women Engineers would also like to acknowledge the appearance of high additional funding on the first page of this application. While we do have a large corporate sponsorship base, we also service 3,000 members of our organization as well as the entire campus community. We are the largest engineering RSO on campus and a

large portion of our funding goes towards sending ~40 individuals to the annual conference each year, which is specified by several of the corporations as their desired use of funds. Thousands of dollars of other funds are specified by corporations to provide food at events they sponsor in a similar fashion. While it appears that we have large external funding, we have limited funding for new events not tied to a corporate event, such as this cooking class. We want to make events like this free to attend and open and accessible to all students, which is why we are requesting funding

- **App No. 142- Engineers in Action Bridge Program**

- *Description:* The Engineers in Action Bridge organization is requesting funds to cover the cost of having 4 of their members participate in the program, traveling to help communities implement these bridges, as well as costs for personal protective gear
- *Reviewer's Notes:* Items being requested have proper documentation as well as breakdown of mission purpose and reasoning for their additional funding + what their extra funding will go to. Their overall fund goal is about \$13,000, with them only requesting about \$4,000 to leave their allotted amount to cover the rest. Little to no funds would remain following these payoffs. Therefore, I recommend SORF funds in order for their program to be successful
- *Connection to Mission:* The funding would cover procurement and delivery costs for the materials essential for building this bridge. In addition, it covers the costs of Personal Protective Equipment essential for keeping all our students and volunteers safe

- **App No. 149- PaGeKo Biomimetics Club**

- *Description:* Biomimetic Robotics is requesting funding for a project
- *Reviewer's Notes:* Open to UIUC students and a project
- *Event Description:* As a registered student organization, Pageko Robotics organizes a robotics team focused on learning and constructing bio-inspired robots. Our mission is to offer hands-on opportunities for students to explore diverse topics in robotics. The team is divided into software, mechanical, and electrical sub-teams, each facing unique challenges but working together toward creating a functional quadrupedal robot. In this program, students gain skills in robotics and learn valuable lessons in collaboration and teamwork. The experience goes beyond technical knowledge, fostering the ability to work harmoniously with individuals from different fields. Our goal is to provide a dynamic learning environment where students can develop both technical expertise and essential interpersonal skills. We will be using the fund to cover the cost of the necessary equipment in the robotics building. Buying the equipment for robotics not only helps us to provide the opportunity for the students to explore the engineering practices but also ensures the safety of the members as the new equipment will prevent the potential injuries associated with the use of worn-out equipment

- **App No. 168- SKY Meditation at UIUC**

- *Description:* Funding for speaker fees
- *Reviewer's Notes:* Contractual fees for speaker
- *Event Description:* The SKY Breath and Meditation Workshop is an internationally acclaimed life-skills program that has benefited thousands of university students, faculty, and staff across the country. The workshop offers training on achieving overall wellbeing primarily through releasing stress via meditation and breathwork techniques that help participants develop a calm and stress-free mind, and an energetic, healthy body. The workshop also features guided yoga sessions, emotional intelligence training, health food, interactive group processes, community service that have shown to significantly reduce anxiety and depression, improve mental focus, build resilience, and leadership with a sense of belonging. At the end of this three-day workshop students are equipped with the 30-min SKY Breath Meditation technique that can be integrated easily into the daily routine to cleanse the mind of negative impressions and increase energy levels. A recent study at Yale University found that the SKY Breath Meditation technique significantly reduces stress, depression, and has a long-lasting impact on mental health, mindfulness, positive emotion, and social connectedness. The SKY Meditation at UIUC RSO is hosting the SKY Breath and Meditation Workshop in a fully funded format for all UIUC students with a vision of happy campus life where each student achieves their fullest potential. A certified instructor with 1000+ hours of teaching experience has been invited to facilitate the workshop

- *Connection to Mission:* As the first student Circassian student organization our participation in Circassian Memorial Day, set to take place on May 21st, 2024, in Wayne, New Jersey at the Circassian Benevolent Association is vital for cultural enrichment, enabling members to delve deeper into Circassian heritage, traditions, insights, and remembrance of the victims of the Circassian genocide. Participating in this event will serve as both a cultural enrichment and an educational opportunity on cultural sensitivity for our members which is crucial for us to achieve our mission and goal. Understanding the historical events that shaped our Circassian identity is crucial for our organization's success. It provides an essential experience for enriching our members' knowledge in cultural values and traditions, fostering an educational experience that contributes to their overall growth. Our strategic involvement in this day will involve engaging with knowledgeable speakers, witnessing captivating traditional dances, and networking with the local Circassian community. By actively participating in this cultural event, we aim to elevate our organization's education, cultural enrichment and foster a genuine appreciation. This initiative not only aligns with our commitment to diversity and cultural awareness but also positions the CBSA as a pioneering student organization, being the first of its kind at any United States University. We are excited about the unique insights and experiences that Memorial Day will bring, allowing us to contribute positively to our community while broadening our perspectives on Circassian history, traditions, and resilience

- **App No. 194- Steel Bridge**

- *Description:* Application is request for project items and paint
- *Reviewer's Notes:* All items meet standards with proper supporting documentation
- *Event Description:* "Every year, the steel bridge team competes in the AISC Student Steel Bridge Competition. We do so by fabricating and assembling at 200 to 400 lb steel bridge, and then presenting it at competition, where our assembly process and the bridges structural capacity are evaluated. The fabrication process (turning steel stock into the individual pieces) and construction practice (practicing the assembly portion of the competition) are done on campus in the Newmark Civil Engineering Laboratory and open to all students. To clarify, the event that we are applying for funding for are the regular meetings we hold 2-4 times per week to fabricate, and later practice assembly on, the bridge. These are open to all students and held on campus in the Newmark Civil Engineering Laboratory on weekday afternoons. The items we are requesting - nuts, bolts, and paint, are necessary for the fabrication bridge for competition. Nuts and bolts serve as fasteners between the multiple members of the bridge, and paint is required for the aesthetics part of the competition. These items are being considered "Programming supplies" since they are necessary for the execution of the applied for program. The quantity of nuts and bolts requested is informed by the construction practices. Since the repeated tightening and loosening of the bolts as the bridge is repeatedly assembled and disassembled can lead to bolts and nuts losing their threading. Thus, extras need to be requested to replace bolts/nuts that wear out

- **App No. 5- Beekeeping Club**

- *Description:* Beekeeping Club is requesting funds for tools used in the extraction of honey and materials for renovations their pollinator garden
- *Reviewer's Notes:* Line item 4 is a programs item
- *Connection to Mission:* The Beekeeping Club at UIUC is a club dedicated to supporting and learning about bees and other pollinators on campus. The items requested are used to collect honey (a crucial part of the process for any beekeeper) and continue renovating the areas we have in place for pollinators. Thus, this application helps ensure that we can continue supporting pollinators across campus
- *Funding type:* Services
- *Amount Requested:* \$741.80
- *Amount Allocated:* \$675.80
- *Administrative Adjustment:* \$551.00

- **App No. 13- Illinois Women's Volleyball Club**

- *Description:* Women's Club Volleyball is requesting funds for travel to several tournaments
- *Reviewer's Notes:* Line item one and three violate standard 12: purchase timing. Line item 5 uses the improper IRS mileage rate, the budget request shows the correct calculation. The total amount after review is still greater than \$5,000
- *Connection to Mission:* Our mission and purpose are focused on teamwork through a commitment to volleyball and fitness. By being granted funding, we can fulfill this purpose

through tournaments and practices, which are the places where we execute this mission. Funding helps ensure that all players in the organization can have a chance to compete and live this purpose

- *Description:* Space rental fees and food for Design Challenge weekend event
- *Reviewer's Notes:* Line items 6-14 are not essential for the success of the program. As such, I recommend SORF fund as amended (\$1,100.00)
- *Event Description:* The Illinois Design Challenge is the flagship event hosted by the Illinois Design Challenge RSO. The event itself is held similarly to a hackathon but for computer-aided design, giving UIUC students the ability to demonstrate their talents with design by competing in a 72-hour design sprint on a design prompt of their choosing. In partnership with some industry sponsors which range from year to year, design challenges are held to solve problems that different companies are currently facing ranging from manufacturing to installation issues. During the event, workshops are held for participants with no CAD experience whatsoever as to give each individual a fair chance at winning the competition. During the three-day span, meals are held for participants with guest lectures and speeches

to help incite interest in the design field. The event is not exclusive to any specific major or department and all individuals with an interest are welcome to join

- App No. 34- **Hive Society Improv Comedy Troupe**
- *Description:* This RSO is requesting funding for uniforms and a space rental for an improv festival

- *Reviewer's Notes:* Line items 2 violates Program Standards: program-specific space rentals
- *Connection to Mission:* Hive Society's purpose is to serve as the University of Illinois' long-form improv troupe. There can be up to four teams, and each of these teams contributes to the Hive mind of the troupe and works together for the betterment of Illinois Improv Comedy. Hive Society Improv is a safe space for all students to learn and perform improv. By participating in UNICIF, we can represent the long-form aspect of improv comedy at UIUC, as we are the only RSO that practices this type of improvisation. We want to share our art and grow UIUC's long-form improvisational comedy community. To put it simply, we want to make ourselves and others smile

 - *Reviewer's Notes:* Application should be funded with \$1705.86. Line items 16 and 17 are unsigned contracts, and line items 18-22 did not provide a mockup of the advertisement
 - *Event Description:* The Annual Health Fair has been a long-standing tradition at the University of Illinois. Our event aims to increase health awareness, improve health status, and promote behavioral changes that will result in a healthier lifestyle among the diverse University of Illinois student body, including but not limited to, racial ethnic minorities, women, people with disabilities, the LGBTQIA+ community, international students, and underinsured or uninsured individuals. Our organization provides health and wellness information to students by hosting a multitude of health-centered vendors, including medical screeners that offer cholesterol, glucose, STI, hearing, and vision screenings, mental health professionals, chiropractors, and health educators, allowing students to receive free

services and advice from health care professionals. Ultimately, our organization strives to provide comprehensive programs to all individuals in our diverse campus community

- **App No. 47- Arpeggia**

- *Description:* The funding provided from this request will allow Arpeggia to continue offering free music education to middle school students in the Urbana-Champaign community. This provides an opportunity for UIUC students to utilize the skills they have gained while making a positive difference in the lives of others. This further promotes the reputation of the university as one that is driven by purpose and impact.
- *Reviewer's Notes:* Line item 1, on the supporting docs they state they have "8 weeks of practice after May 6", my impression is that they meant March 6th, but I know there have been errors previously as such, on past applications to which we denied or funded as amended. Line item 6, has no supporting docs, just states the pricing breakdown in paragraph form. It is then followed up with a table of charges that I don't see included in the budget sheet. They also do have additional funding available, so based on this, I recommend SORF funds as amended
- *Connection to Mission:* Foldable music stands, saxophone and trumpet mouthpieces, saxophone reeds, and trumpet valve oil are all essential equipment that Arpeggia requires in order to provide lessons to students. This equipment will be used by the students that we mentor. Additionally, because these instruments will be shared by many people, we require hand sanitizer, sanitizer wipes, and mouthpiece sanitizer as essential equipment to ensure that the teaching environment is sanitary, and we are minimizing the risk of spreading

disease as much as possible. Paper handouts include educational materials to be provided to mentees as well as reference materials for mentors to guide them in instructing lessons, and thus are necessary as essential equipment as well. Lastly, we request funding for the website domain as essential equipment that will allow us to reach a wider audience, potentially bringing in new members/mentors or new students to mentor, allowing our organization to improve our services and grow

- **App No. 48- Illini Badminton Intercollegiate Sports Club**

- *Description:* The Badminton club is requesting funds for materials, equipment, space rental, and competition fees
- *Reviewer's Notes:* Line item 1, on the supporting docs they state they have "8 weeks of practice after May 6", my impression is that they meant March 6th, but I know there have been errors previously as such, on past applications to which we denied or funded as amended. Line item 6, has no supporting docs, just states the pricing breakdown in paragraph form. It is then followed up with a table of charges that I don't see included in the budget sheet. They also do have additional funding available, so based on this, I recommend SORF funds as amended
- *Connection to Mission:* The shuttles, court time, string, and grip support the normal day-to-day operations of the club. As a competitive club, we plan to use the tournament fee support and gym hosting fees to help support our mission to be more competitive
- *Funding type:* Services
- *Amount Requested:* \$4,524.50
- *Amount Allocated:* \$4362.50

- App No. 54- **Egyptian Student Association**

- *Description:* Console rentals, traditional food and drinks, supplies for traditional activities
- *Reviewer's Notes:* Application is requesting funding for items and supplies to host events sharing Egyptian culture with the broader campus community. Line items 1 and 2 are not related to the mission and purpose of the RSO. As such, I recommend that SORF funds the application as amended
- *Event Description:* Every week, we plan to have at least one event. Aligning with our club's mission, these events are based on the idea of connecting UIUC students who are interested in Egyptian Culture, regardless of whether they have Egyptian heritage or not, and showing them what it is like through various, differently themed events. The core idea (aligning with the RSO's mission) will be consistent across all events. The themes of each event will always have direct connection to Egyptian culture. For example, some events will be themed on an Egyptian cafe (Maqahy) where there will be traditional Egyptian board games played like chess and tawla, beverages and snacks like tea and Todo (Egyptian candy), and traditional Egyptian music played. This event will likely occur more than once throughout the semester. Another event will be themed on an Egyptian cyber (internet cafe) where people can play all sorts of different console games. Another event will be based on an Egyptian dinner/iftar where there will be a wide range of traditional Egyptian foods like koshary and molokhia. We also plan on doing social trips to places like a trampoline park to simply allow people to socialize

- App No. 64- **Off-Road Illini Baja SAE**

- *Description:* Off-Road Illini Baja SAE is hosting a Baja SAE Drive Day where anyone who is there can drive their new car that they built. It is free and on campus for anyone
- *Reviewer's Notes:* Line item 18 violates Program Standards: non-essential food. All other line items should be adjusted to match the supporting documentation
- *Event Description:* This "drive day" is a similar to an event we hold every year in the fall, but it will be the first time holding it in the spring and at the school. We will be inviting current Off-Road Illini members, as well as anyone who wants to join, to come with use to the ABE test track. We are currently building a new off-road vehicle, which will be completed by the time this event occurs. On the day of the event, we will bring the newly finished car to the test track and allow each person who comes to drive the car for several minutes. They will be able to drive through several obstacles including cones, hills, and tight turns. We will be providing driver gear for each person, such as helmets, gloves, and goggles, to ensure their safety, as well as checking driver's licenses. We will also be grilling lunch for anyone who wants it. The purpose of this event is to get both members and non-members of the team excited about the car and give them their own opportunity to test it out. It will also be an opportunity to test drive our car before our first competition in May. We have emailed with Nick Fink and will be adding advertisements of this event on the second floor of the Union. We will also be posting in at our general meeting and on our social media pages closer to the date. Most of the items we are requesting are essential to finish manufacturing our vehicle before this event occurs. We are also requesting driver gear and a grill to make this day even more fun

- *Connection to Mission:* The purpose of the Illini Ridgebacks Quadball Team is to develop the best possible skills of Quadball players at the University of Illinois Urbana Champaign. The most effective way of developing one's game is to compete against teams from other universities. At Marquette University and Bowling Green State University, we would compete against some of the best teams in the country and sharpen our knowledge of the sport. This would also prepare us for competing at the D1 level of Quadball, which we'll be playing in Austin later this semester

- **App No. 74- Illinois Ballet Company**

- *Description:* Illinois Ballet Company is asking for funding for their ballet show, which is on campus and free for students to introduce students to classical ballet shows they would have otherwise not had the chance to do so as tickets would be expensive and the shows are not usually in Champaign, giving students the chance to see different ballet performances
- *Reviewer's Notes:* Application should be funded at 94% due to non-Illinois attendees. All items meet standards
- *Event Description:* IBC will be performing excerpts from classical ballets including Paquita, Giselle, as well as classical solo variations at Lincoln Hall Theater on the evening of March 26, 2024. With tech rehearsal on March 24 and Dress rehearsal on March 25th. We have booked these availability dates in the Lincoln Hall Theater calendar with Terry Dederich. In the show, we plan to have a guest performance by La Fuerza Flamenca, a fellow dance RSO run by our Treasurer Kaleigh (IBC is the main applicant for this grant and LFF will not be contributing funding for the event). We will provide free tickets in order to promote accessibility of classical ballet to the UIUC Community. We expect 200 to 300 audience members

- *Description:* Food, drinks, single use serving items, space rental fees and digital signage cost for charitable event
- *Reviewer's Notes:* Application is requesting funding to host a broomball fundraiser. Line items 1-3 are food unrelated to the program. As this is a charitable event, I recommend that SORF funds the application as amended at 50% (\$205.99)
- *Event Description:* Broomball is one of our signature events in which teams or individuals can sign up to participate in a tournament that is essentially hockey without skates and with brooms. We do a double elimination tournament meaning each team will get to play at least twice before being eliminated or moving to the next round. It is a lot of fun and we normally have about 200-250 people sign up every semester. This year it is taking place at the ice arena on March 23rd from 10pm - 1am

- *Reviewer's Notes:* Line items 1-3 are food unrelated to the program. Line items 4 and 5 should be applied for under services. Supporting documentation (mock-up) for line item 8 was provided during the review process. As this is a charitable event, I recommend that SORF funds the application as amended at 50% (\$103.00)
- *Event Description:* We will be hosting a dodgeball tournament to raise funds for a student sponsored home for Habitat for Humanity. This will take place on March 24th from 7-9pm and will take place at the ARC in 8 racquetball tournaments. It will be a Round Robin Style tournament meaning each team meets every other team, usually in turn, and so everyone will get to play for the full tournament. We will be playing music, and it will be an overall fun, social, charitable, and collaborative tournament. We already have garnered a lot of interest with other RSOs and are projecting a turnout of 130 people, around 20 teams of 6-7

- *Description:* This RSO is requesting funding for ingredients and utensils for a Mongolian cooking class. It is free to students and on-campus
- *Reviewer's Notes:* Supporting documentation does not match amount being requested. The funding amount should be amended to \$79.31
- *Event Description:* MCO will be hosting a cooking class to teach attendees how to make traditional Mongolian dishes, buuz and niislel salad. Buuz is a Mongolian dumpling, and niislel salad is a Mongolian version of a potato salad. These two dishes are core parts of Mongolian cuisine, and teaching others how to make these dishes will provide a foundation for how to cook Mongolian food. MCO will be reserving the ARC kitchen and providing all the ingredients and tips necessary to successfully cook the dishes. Attendees will be able to ask questions and follow along with the MCO executive board members teaching each step of the cooking process

- App No. 103- **Robobrawl**

- *Description:* Requesting funds for parts and supplies to build/ host their fighting robots' competition
- *Reviewer's Notes:* Lines 3-7 seem indirect to the success of their event. Maybe if it was applied as a service, but overall program of this event is not necessary. Specifically line 5 (banner), but we cannot fund without approving the design of it. They listed 90 people as non-Illinois attendees, but overall attendance of Illinois students is unsure. Due to these inconsistencies, I recommend SORF funds as amended
- *Event Description:* Robobrawl is 30 lbs and 1 lbs combat robotics competition, ran an organized by the Robobrawl Committee RSO. It is a 2-day event that takes place during Engineering Open House, where 64 competitors; from UIUC, other universities, and hobbyists, gather to fight robots. - **App No. 145- Society of Women Engineers**

- *Description:* Asking for items to be reused throughout semester, asking for subscription
- *Reviewer's Notes:* Fund line items 1,2. Do not fund 3 as it is a subscription.
- *Connection to Mission:* Wagon: Our programs frequently service hundreds of individuals and the quantity of supplies necessary for each program quickly becomes a dangerous weight for an individual not used to carrying heavy supplies. While we practice safe lifting procedures, a wagon would help dramatically in bringing hot trays of food, supplies for community service, and other supplies necessary for the programs that we host. Trash grabbers: As part of our mission to advocate for mentoring relationships and advocate for the future pursuit of engineering, we are visible on campus and give back via the adopt-a-street program. We require trash grabbers to keep our members safe while picking up trash and beautifying the Champaign-Urbana community. Mailchimp subscription: In order to develop a diverse network of women in engineering, we need to be able to communicate with our email list. We have almost 5,000 individuals on our email list, which exceeds the free subscriptions for all mail merge services. Mailchimp allows us to email our entire base monthly, developing a diverse network by providing a consistent and accessible way to access registrations, hear about upcoming events, and foster a sense of community

- App No. 151- **Society of Women Engineers**

- *Description:* Asking for food and kits for event
- *Reviewer's Notes:* Only fun line item 2 at 25% non-Illinois
- *Event Description:* Collegians and high school students will work together to design, build, and test a project. Over lunch, students will foster community, as breaking bread with those around you helps to tear down walls and create a more casual environment for all to share

their experiences in engineering. Then, teams will be presented with a design problem, supplies, and a set amount of time to design and build their prototype. Wind power is at the height of the renewable energy sector and includes sections of electrical, mechanical, aeronautical, and chemical engineering, which makes it an incredibly intersectional project. At the end, the experiments will be tested, and the scientific method will be discussed.

- This event will be hosted by the Outreach committee to interest high schoolers in engineering while providing valuable leadership, outreach, and volunteer experience for collegians in attendance. Both collegians and high school students will learn teamwork, build up the self-esteem and confidence of women in engineering, and make engineering as a concept feel less daunting and more of a community for all

- App No. 176- **Saudi Students Association**

- *Description:* Saudi students association is hosting an event in honor of Eid and requesting funds for cultural food related to their program and mission purpose
- *Reviewer's Notes:* They provide adequate documentation for their requested cultural food + a case of water from Costco. Based on the attendance of non-Illinois students and supporting documents, I recommend we fund as amended
- *Event Description:* Eid al-Fitr is the earlier of the two official holidays celebrated within Islam. The event is aimed at celebrating and educating students at the University of Illinois Urbana-Champaign campus community about the significance of Eid Al-Fitr in the Muslim culture. It will feature cultural exhibitions and traditional food to foster an understanding and appreciation of the diversity within our campus. The event is designed to be inclusive, inviting participation from all students irrespective of their cultural or religious backgrounds. Eid Al-Fitr Celebration aligns with our mission of sharing the Muslim and Saudi traditions in this celebration by educating the campus community about our cultural practices and beliefs, contributing to the non-Saudi individuals' understanding of such an important event. Moreover, we want to replicate the Saudi experience on campus to ensure that Saudi students feel close to home. What Christmas is to families here in the US is what Eid is to Muslims around the world

- App No. 184- Illinois Triathlon Club

- *Description:* Illinois Triathlon Club is asking for funding for money to and from the competition so their members can attend nationals
- *Reviewer's Notes:* Line items 2 and 4 violate Services Standards: vehicle rentals. Line items 1, 3, 5 meet standards
- *Connection to Mission:* We seek to build a community of triathletes on the University of Illinois campus and enable students to train and race as a team under the University of Illinois banner. All the requested items will help subsidize our cost of attending nationals, allowing our members to compete at the highest level. The U-Haul is necessary to transport our bikes to the race in a cost-effective way, the cars will transport us to and from the race destination, and the registration fee is necessary for every member attending nationals
- *Funding type:* Services
- *Amount Requested:* \$4,994.20
- *Amount Allocated:* \$3,292.95
- *Administrative Adjustment:* \$2,550.00
- *Administrative Rationale:* Gas for U-Haul and Car Rentals is not fundable.

- App No. 193- **Pakistani Students Association**

- *Description:* Pakistani Student Association is hosting a fashion event to share Pakistani heritage
- *Reviewer's Notes:* Do not fund line item 10 because it is a service. Fund at 75% because charging UIUC students. Fund down another 5% because 5% non-Illinois Students
- *Event Description:* The Pakistani Students Association is organizing a vibrant and culturally rich event, a fashion show that is not just a showcase of style but a celebration of Pakistani heritage. This event is set to be an extraordinary display of Pakistan's vibrant colors, exquisite tastes, and rhythmic melodies. At the heart of the event is the fashion show, where traditional and contemporary Pakistani attire will be on display. This is an opportunity to witness the intricate designs, bright colors, and unique styles that make Pakistani fashion stand out. Our own members will be wearing an assortment of clothing including elegant shalwar kameez and stunning lehengas showcasing traditional Pakistani designs. Complementing the fashion show will be an array of authentic Pakistani cuisine. Attendees can savor the tangy and spicy flavors of Pakistani street food like Bhel Puri and Channa Chaat. We also plan to serve Chicken Pakora, a popular snack many Pakistanis enjoy at big events. For drinks we plan to serve Lassi which is a traditional yogurt-based drink from Pakistan. We plan on providing these snacks from Lassi Wala, Falak Banquets, Chaat Cart, and Star Foods Samosas. Adding to the event's ambiance, a DJ will be playing a selection of Pakistani music ranging from classic tunes to contemporary hits. This music will not only entertain but also immerse guests in the rich musical heritage of Pakistan. The music will also be used for members to perform traditional Pakistani dances. Overall, this event is more than a fashion show; it's a celebration of Pakistani culture in all its aspects. It's an invitation to explore and appreciate rich traditions, flavors, and sounds that Pakistan has to offer. It provides attendees with a memorable experience and a deeper understanding and appreciation of Pakistani culture

- *Event Description:* The Nutritional Sciences Graduate Student Association (NSGSA), in coordination with the Division of Nutritional Sciences (DNS), will host its annual Nutrition Symposium on Friday, April 12, and Saturday, April 13, 2024. We are delighted to announce that this year's event will celebrate 30 years of the Nutrition Symposium! The NSGSA and DNS are incredibly proud of accomplishing this milestone. To commemorate, we are planning a two-day event that honors the accomplishments of nutrition science over the last 30 years, celebrates the discoveries being made today, and recognizes the work yet to be done. This sentiment will be the theme of this year's Symposium: From Seed to Pearls: Celebrating 30 years of Nutrition Science Research at UIUC. Since 1994, the Nutrition Symposium has showcased emerging student and faculty research to the university and program sponsors. It has also become a respected forum facilitating interactions between the local nutrition community, DNS faculty and students, adjacent faculty and students, and program sponsors to enable future scientific collaborations and career opportunities. We are incredibly honored to have Dr. Cheryl Anderson as the Keynote Speaker for this event. Dr. Anderson is Professor and Dean of the Herbert Wertheim School of Public Health and Human Longevity Science at the University of California, San Diego (UCSD). She is the Director of the UCSD Center of Excellence in Health Promotion and Equity, a Fellow of the American Heart Association, a member of the 2015 and 2020 US Dietary Guidelines Advisory Committee, and an elected member of the National Academy of Medicine. Dr. Anderson's research focuses on the effects of dietary patterns, sodium, and potassium on cardiovascular health, behavioral interventions for adherence to dietary recommendations, and investigating nutritional risk factors for kidney disease and related cardiovascular events. In addition to Dr. Anderson's keynote address and graduate student oral and poster research presentations, our event also features a DNS faculty symposium. Faculty speakers

will include Dr. John Erdman, Professor Emeritus of Nutrition and Food Science; Dr. M. Yanina Pepino, Associate Professor of Nutrition; and Dr. Hans Stein, Professor of Nutrition

The appeal of this event to students is the opportunity to celebrate friends, colleagues, or anyone beyond intimate relationships. White Day helps students who might otherwise feel left out be appreciated, and CLAUD is specifically centered around UIUC. Additionally, the White Day event provides traditional Chinese snacks and drinks which gives students the opportunity to experience and enjoy Chinese culture. Students enjoy not only delicious treats but also the opportunity to socialize and relax. CLAUD will hold the White Day event in

a cafe-style service. Students will be able to order drinks and snacks from a preselected menu. CLAID will also offer a cozy and comfortable atmosphere during the event with activities and games. Again, White Day is once a year, and this event offers a once-in-lifetime college experience, especially for those who might graduate soon

glutinous rice flour	<p>Glutinous rice flour is crucial ingredient for our White Day event. It is the foundational ingredient to our osmanthus rice cakes. All of the ingredients are important to the rice cakes so that we can provide the most authentic taste of Chinese culture to our members. The cultural significance of osmanthus rice cakes dates back to the Ming Dynasty and remains a strong cultural tradition in modern-day China. Few students would otherwise be able to try or know about this dessert if it wasn't for CLAID offerings. Our White Day event invites international, domestic, and anyone in between to</p>	20.99	2	\$41.98

rice flour	Rice flour is the next necessary ingredient. Besides its importance (which is similar to that of glutinous rice flour), we also need large quantities in order to reach the most students at our White Day event.	12.34	2	\$24.68
wheat starch 澄粉	Wheat starch is also of utmost importance when making osmanthus rice cakes. Not only is it integral to the rice cakes, but it also contains important nutritional value that will most definitely benefit attendees. We require a large quantity as well in order to serve the needs of all of our attendees at this event.	18.99	2	\$37.98
osmanthus syrup	Osmanthus syrup, being made from the osmanthus flower, will give our osmanthus rice cakes the flavor it needs. Osmanthus is also commonly seen as an important supplement in Chinese culture,	14.49	1	\$14.49

	<p>providing health benefits and aiding with digestion for those who consume it. By obtaining osmanthus syrup, we will be able to give attendees the opportunity to experience the unique taste and benefits of osmanthus.</p>			
instant coffee	<p>Instant coffee is made using coffee beans that have already been brewed. It only requires the addition of hot water/milk, providing convenience and saving time for those who drink it. The instant coffee will provide an effective way to serve coffee, a staple of any cafe, to attendees.</p>	6.89	2	\$13.78
coconut milk	<p>Coconut milk is a white liquid that is collected from the pulp of coconuts and contains many important nutrients. Coconut milk is great for a wide variety of desserts and can also be incorporated into drinks. By utilizing coconut milk for</p>	2.29	5	\$11.45

butter	In any operating cafe, having the basics such as butter, sugar, flour, and eggs are always necessary for menu items and adjusting tastes to customers' liking. CLAUD's White Day event will also be operating as a cafe, and we pride ourselves on delivering high quality service and foods. Therefore, having the proper amount of ingredients to be best prepared for any situation is crucial to smoothly running the event like a real cafe.	6.49	2	\$12.98

heavy cream	<p>Heavy cream is derived from milk and has a high level of fat, allowing it to thicken and give shape to many dishes. At CLAUD's White Day event, black sesame cheesecake will be served, which requires heavy cream to give the cheesecake its creamy and smooth texture. With heavy cream, we will be able to bake black sesame cheesecakes that students will be able to enjoy.</p>	4.39	3	\$13.17

cream cheese	Cream cheese is also extremely crucial to black sesame cheesecake and makes up the majority of the cheesecake. Its soft texture and slight sweetness give the cheesecake a delectable taste that attendees will be able to enjoy.	5.19	3	\$15.57
lemons	Lemons are citrus fruits with a refreshing yet sour taste. These can be used to add a level of acidity to drinks, particularly tea, while also adding many health benefits like the reduction of a sore throat. Using lemons in this event's menu items will certainly provide an effective balance to some of the sweeter items we'll be serving.	4.39	2	\$8.78
black sesame powder	Black sesame powder and black sesame paste are made by roasting, then grinding black sesame seeds. Both the powder and paste have a nutty flavor that can be	33.99	1	\$33.99

wintermelon block	<p>Wintermelon blocks can be used in wintermelon tea, a drink common in East Asia, often seen as a street food. This is a lighter drink to balance out the heavier teas and beverages we will serve at the White Day event.</p>	25.88	1	\$25.88
ube latte	<p>Ube lattes would provide the event with a beverage that is sweet and savory, satisfying the preferences of any students who may not find the teas to be their favorite. Ube has been spreading within and outside of Asia, so having it at the event would give students another beverage or food where a global spread is evident. This gives the students a much</p>	8.99	3	\$26.97

 - *Event Description:* We, the brothers of La Unidad Latina, Lambda Upsilon Lambda, and Fraternity, Inc., plan to host our annual Women's Empowerment Dinner in Latzer Hall at the YMCA. As March approaches, we want to dedicate Women's History Month to hosting a dinner on March 7th, one day before International Women's Day. We are excited to dedicate this night as a form of acknowledgment for the contribution of women in the past and present. We plan to create a pleasant atmosphere for the attendees by playing light music and decorating the venue. We plan to invite speakers to share their thoughts on women's often overlooked contributions and how they have played a factor in women's empowerment. Food and beverages from a local restaurant will be provided for the attendees. This event will be open to everyone, and we will post it on our social media for people to RSVP for the event. This event's purpose is to celebrate women's achievements on an international spectrum and fight against gender norms

- *Connection to Mission:* Our mission for the Hot Pot Basketball Association serves to provide Asian women basketball enthusiasts an opportunity to train, compete, and bond like a real basketball team. The requested items we listed in the funding proposal include essential equipment and the upcoming April tournament. The essential equipment like indoor and outdoor basketballs, pinnies, traction board, and others are important for our regular training and competition as a basketball team. Resistance bands and foam roller are part of the intensive training sessions and aid in muscle recovery from the training. Medical equipment ensures the health and safety of the team during training and competitions for any accidental incidents, which are quite common in any athletic activities. The April tournament is a tournament set up for Chinese women only, which gives us a chance to connect with the women's basketball team outside UIUC. The organization of the tournament, She Got Buckets, is a nonprofit organization and the fee is used to pay for the gym reservations and referees. Transportation and lodging are not included in the registration fee of the tournament, and we want to provide a financially free or an affordable opportunity for the team to take part in this event. The tournament provides our organization an opportunity to connect with other women basketball enthusiasts and test our intensive training in a real competition

- *Event Description: CBSA will create a forum where Circassian issues can be discussed and solutions can be formed. We will be hosting a Midwest Arabic Debate Championship. Our club will be working with the Arabic department of University of Illinois at Urbana-Champaign and the Qatar Debate program to facilitate a platform to engage in open and spirited discussions on crucial real-world topics, including politics, science, and ethics. Driven by the goals and mission of the Circassian Benevolent Student Association, our event seeks to establish a culturally enriched environment that actively promotes education. By doing so, we aspire to create a forum where issues surrounding cultural diversity and inclusivity, including the exploration of Circassian history and minority cultures through some debate motions. The decision to conduct this event in the Arabic language holds great significance, especially considering the majority of the Circassian community's population coming from the Middle East region. This linguistic choice not only aligns with the community's preferences but also ensures that the discussions are authentic and directly relevant to their experiences. This event will bring together top debate performers from universities across the Midwest, including the University of Chicago, the University of Indiana, Northwestern, and many more. By collaborating with these prestigious institutions, we aim to empower and inspire critical thinking. We will host around 10 highly competitive team performers, who will showcase their debating skills and compete for the opportunity to advance to the national level. To have this event we must have the debate performers and judges. These rounds of debates will be open to the public from UIUC to watch and experience this event without costs*

- **App No. 24- Illini Women's Waterpolo Club**

- *Description:* Women's Waterpolo Club is requesting funding for travel and lodging for upcoming competitions, as well as space rental (ARC pool) for practices
- *Connection to Mission:* The purpose of the Women's Waterpolo club is to compete and have fun. We do this by traveling to other big tens, in which we carpool and stay in nearby hotels. We also host our own tournament at the beginning of the season in which we will be renting out space in the ARC
- *Reviewer's Notes:* They submitted adequate documentation for the budget sheet, but the dates on the supporting docs would be considered out of the funding period (if it is the same timeline as their evidence, but they did not specify dates for when they plan on traveling and staying in hotels for Spring 2024. They also have an ample amount of additional funding. They submitted documentation for referees' lodging and food but did not include that on their budget sheet. There are just too many discrepancies and due to them having the funding amount they are requesting, I recommend that SORF does not fund

- **App No. 53- Queer Library Alliance**

- *Description:* Application requests traveling and ticket fees for tours of two Chicago LGBTQ+ libraries and materials for building a bookshelf
- *Reviewer's Notes:* Incorrect application type. Line item 1 gas should be calculated in 58.5 cents per mile; line item 3-9 is unrelated to the program
- *Connection to Mission:* The Hart Library is a significant historical collection for queer people worldwide. Attendees will go on a tour of the library and archives. They will have the opportunity to learn about the many significant LGBTQ2+ events happened in Chicago; in fact, it's the location of the first group advocating for queer rights in America. Attendees will learn what goes on behind the scenes at libraries and what it's like to work at such a prestigious library. The Leather Museum and archives has been a source for LGBTQ research since they opened. The Archives contain books and materials regarding dozens of LGBTQ groups, clubs, and establishments. Attendees will go on a tour. Librarians, archivists, and museum professionals all work closely in the Information Sciences field. - *Reviewer's Notes:* Line items 3-31 violate Program Standards: non-essential food. The campsite reservation cost/information is not provided in the supporting documentation
- *Event Description:* MCO will be hosting our annual camping trip to Walnut Pointe State Park this spring. This camping trip is an overnight trip for students to experience nature while also celebrating Mongolian culture by sharing food, playing games, and telling stories. The camping trip involves a blend of American camping activities like grilling hot dogs and making s'mores, with Mongolian culture, which includes Mongolian food and Mongolian songs and games. It is free for all attendees, including non-members (as long as they register in time for available slots). The organization will provide transportation to and from the campsite and all food and camp essentials, such as tents. This will be the 4th year in a row that we've organized the event and we're looking forward to it greatly. This camping trip is an essential part of the experience for those in MCO because it serves as a way for students

- *Connection to Mission:* We have meetings and socials that bring all members of Black Queer Collective closer together in the community. The social events we have this spring are called ""Snack & Social"" where we have a social activity event every third Monday of the month. The social for March will be bowling and the snack will be pizza and wings with nonalcoholic beverages. The social for April will be an end of the year celebration event where we will be having blank canvases and tote bags for all members to paint on; we will also have board games such as uno and monopoly. The snack will be catered tacos and ice cream with nonalcoholic beverages. We are also requesting snacks for our Monday discussion meetings where we discuss Black and Queer related topics. These meetings are called ""Delicious Discussions"". The snacks will be chips, cookies, gummy bears, and non-alcoholic beverages.

The activities relate to our mission of building community through discussions and social events because being provided with the resources to do those type of events will create further dialogue on deeper topics and bring students who attend Black Queer Collective events closer together. The snacks relate to our mission of creating community through events because we are providing resources to make those who attend our events more welcomed and comfortable. It (being Snack & Social and Delicious Discussion) is also in the name implying that snacks will be provided, therefore, snacks are necessary for our events/ meetings. The items being requested are for all members, not just the executive board, Black Queer Collective is an inclusive space

- **App No. 139- African Cultural Organization**

- *Description:* African Cultural organization is requesting funds to host a cultural show where various activities will take place. They list as free to students, on campus, with 1% non-Illinois attendees
- *Reviewer's Notes:* They provide adequate documentation for space rental. Line items 2-5 are links for fabrics, but one of the fabrics looks like it was placed on the list twice with their totals differentiating. Line items 4-5 are requesting an amount different from the Amazon price listed, it is unclear how many orders of the fabric they are looking to obtain. Line 6 is just a link to Walmart's website, unclear what they are requesting it for. Due to the lack of documentation and the frequency of it, I feel as though SORF can only fund a percentage of their requests, ie the rental space. Other items to be discussed

- App No. 154- **Medlaunch**

- *Description:* This RSO is requesting funding for materials in their Wheelchair to Camper project, including tubing, grates, and pipes
- *Reviewer's Notes:* All items meet standards
- *Connection to Mission:* All the items requested will be going towards building one of the six projects we will be delivering by the end of this school year. The primary project that we are seeking funding for is the Wheelchair to Camper project, which is a portable quick-assembly wheelchair ramp for a family looking to overcome challenges with their current camper situation. Their daughter has cerebral palsy, so they require a ramp that will be safe for heavy foot traffic and extended usage, be modular, lightweight, and portable so that it can be assembled and disassembled wherever they deploy it, and be able to be broken down to fit in the back of a pickup truck bed whenever in transportation. This ramp will be attached

to their camper for wherever they are stationary for a period of time and will greatly ensure safety for their family as their daughter is growing to be too heavy to safely carry for without risk of injury in and out of their camper. Our other projects also work with designing for disability, including a device with lane line detection software and proximity sensors to help vision impaired swimmers maintain trajectory while swimming, a customized welding glove for a man with a hand defect, and more! As I mentioned before, these projects are unique because Medlaunch designs and builds by valuing an individual, as opposed to mass producing products that are inaccessible, expensive, or unusable for groups of people. Medlaunch is an RSO of motivated students who design for disability and advocate for disability awareness as well. Medlaunch's unique purpose is to design and innovate in partnership with traditionally address overlooked groups in society so that they may be able to navigate their needs and wants with comfort and ease

- App No. 161- **Dance2XS UIUC**

- *Description:* Dance2XS UIUC is requesting funding to be able to go to dance competitions in Michigan and Chicago, helping members grow in their dance skills and make it more accessible for members to be able to attend these showcases
- *Reviewer's Notes:* Line item 2 violates SORF Standards: already paid for. Line items 1, and 3-5 meet standards
- *Connection to Mission:* Dance2XS UIUC's purpose is to provide an outlet for students to train, dance, perform, and learn diverse styles of dance. The requested items will help our team continue to grow as dancers by providing various performance opportunities around the Midwest. The extra funding will make these experiences more affordable and accessible to our members

Gas (Spring Performance in University of Michigan):	342 miles one way = 684 miles round trip 684 * .585 * .25 = \$82 (cost of 1 car). There are 26 team members	\$100.00	6.00	\$600.00

	participating at the University of Michigan dance showcase. This is the estimation of gas to take 26 dance team members to the performance in Ann Arbor, Michigan.			
Urbanite Spring 2024 Performance Fee	Urbanite fee = \$35 per team member. 27 team members are participating in the Urbanite Dance Showcase this semester. Each member is charged \$35 to participate in Urbanite each semester. We were verbally told by Delayney (head of all 2XS teams) the fee this semester will be the same price as last semester, which is \$35.	\$35.00	27	\$945.00
Gas (Urbanite Performance in Chicago Spring 2024)	141 miles one way = 282 miles round trip. $282 * .585 * .25 = \$42$ (cost of 1 car). 27 team members are participating in the Urbanite Chicago Spring 2024 showcase.	\$42.00	6	\$252.00

- **App No. 82- Cross Country Club**

- *Description:* Application requests a tent for meets
- *Reviewer's Notes:* Line item costs above \$999.99
- *Connection to Mission:* As stated above, a team tent would greatly help with the rough conditions of our outside meets. It can also give our club a greater image at meets and Quad Day. Many other clubs at our meets (specifically Big Ten clubs) have large team-branded tents. As one of the biggest collegiate clubs running teams and a large club at Illinois, this would further that positive image. I am attaching a picture of Minnesota's team tent that is the brand (EZ-Up) and size we are looking to replicate

- **App No. 101- Statistics Doctoral Student Association**

- *Description:* This RSO is requesting funding for technology (camera, projector, microphone, etc.) for a 4-part seminar series led by PhD students in the Statistics department
- *Reviewer's Notes:* All items meet standards
- *Event Description:* The Statistics Doctoral Student Association will organize Research Seminars in Statistics during the Spring semester. We are planning on organizing 4 seminars in total. The speakers are going to be PhD students of the Statistics Department. The total duration of each event is going to be approximately 2.5 hours. Each event will consist of 3 presentations (3 doctoral students for each event), discussion time and breaks. Our plan is to be able to have live broadcasts of our seminars on Zoom and YouTube and also record them so that we can save them in our archive and upload them on our website and social media. The events are going to be free and open to all students and faculty members on campus. The events will take place at the Statistics PhD students' office (Technology Plaza, UIUC campus). This location does not hold technical equipment for presentations and recording. More specifically we are going to need:
 - For the presentations:
 - - A projector and projector screen for the presentations.
 - Whiteboard markers
 - For recording and live broadcasting:
 - - A camera
 - - A camera tripod
 - Microphone for audio recording

- **App No. 70- Minority Association of Pre-Medical Students**

- *Description:* This RSO is requesting funding for hotel and flights to attend a medical education conference
- *Reviewer's Notes:* All items meet standards
- *Connection to Mission:* The main goal of our MAPS chapter is to expose our members to different opportunities that will prepare them for their future careers in the healthcare field.

This includes being given an opportunity to network and meet with others who have already accomplished things that many of our members hope to accomplish in the future. The Annual Medical Education Conference (AMEC) will allow our members to have several days of innovative programming geared at preparing the next generation of physicians for successful careers in medicine. With tens of educational workshops and programs focused on academic and clinical success, professional development, and personal growth, AMEC will help catapult our attendees toward becoming “clinically excellent, culturally competent, & socially conscious” physicians. Our members will also enjoy the unique opportunity to network with colleagues, physicians, medical school representatives, and partners from all over the country

- **App No. 7- The Classics Club**
 - *Description:* The Classics Club is seeking to funds for General Body Meeting, requesting for refreshments and food
 - *Reviewer's Notes:* General Board Meeting
 - *Event Description:* Once a week, we have general meetings where we read and discuss ancient texts and modern reception to them. During these events, we have movie nights and bring in grad students in the Classics department to discuss their research. Also, once a week, we have philosophy meetings that function the same way except with a focus on ancient philosophical texts

- **App No. 11- Illinois Women's Volleyball Club**
 - *Description:* Women's Club Volleyball is requesting funding for a volleyball tournament to be hosted on campus. Funds would cover ARC space rentals
 - *Reviewer's Notes:* Out of funding period
 - *Event Description:* We host two home tournaments during the year; one in the fall, and one in the spring. These will feature approximately 10-20 teams competing in ARC Gym 1 from 8 am until 8 pm. We have the entire gym rented out, in addition to one MP room and the supervision of an event manager. We have already completed one home tournament in the fall; therefore, this is just a request for spring tournament funding with the same expected costs

- **App No. 15- Hillel Leadership Council**
 - *Description:* Application requests for registration fee and travel expense for basketball tournaments

- *Reviewer's Notes:* Basketball tournaments are unrelated to the mission and purpose of the student organization
- *Connection to Mission:* The mission of the Hillel Leadership council is to foster a Jewish community that enriches the lives of every Jewish student so that they can enrich the lives of others. The requested item, the registration fee to allow us to participate in the tournament, would allow for the Jewish community to come together and spend some quality time together. It will also allow for our students to interact with other college students to hopefully gain life values and long-lasting friendships from all over the country. Creating community is a main part of our mission and this basketball tournament will allow for our UIUC community to hopefully grow closer together but also interact with other communities and create one big, larger community. The requested item, mileage, is included since the basketball tournament will require travel since it takes place at The University of Maryland. So, we will need to travel from campus to Ohare to fly to Baltimore. We expect to operate five vehicles to get the students to and from the airport. The google maps included shows the expected mileage it will require to get to the airport, since it is a round trip, we multiplied it by 2 and had a total mileage of 298.80

 - *Reviewer's Notes:* Duplicate application
 - *Event Description:* The Nutritional Sciences Graduate Student Association (NSGSA), in coordination with the Division of Nutritional Sciences (DNS), will host its annual Nutrition Symposium on Friday, April 12, and Saturday, April 13, 2024. We are delighted to announce that this year's event will celebrate 30 years of the Nutrition Symposium! The NSGSA and DNS are incredibly proud of accomplishing this milestone. To commemorate, we are planning a two-day event that honors the accomplishments of nutrition science over the last 30 years, celebrates the discoveries being made today, and recognizes the work yet to be done. This sentiment will be the theme of this year's Symposium: From Seed to Pearls: Celebrating 30 years of Nutrition Science Research at UIUC. Since 1994, the Nutrition Symposium has showcased emerging student and faculty research to the university and program sponsors. It has also become a respected forum facilitating interactions between the local nutrition community, DNS faculty and students, adjacent faculty and students, and program sponsors to enable future scientific collaborations and career opportunities. We are incredibly honored to have Dr. Cheryl Anderson as the Keynote Speaker for this event. Dr. Anderson is Professor and Dean of the Herbert Wertheim School of Public Health and Human Longevity Science at the University of California, San Diego (UCSD). She is the Director of the UCSD Center of Excellence in Health Promotion and Equity, a Fellow of the

American Heart Association, a member of the 2015 and 2020 US Dietary Guidelines Advisory Committee, and an elected member of the National Academy of Medicine. Dr. Anderson's research focuses on the effects of dietary patterns, sodium, and potassium on cardiovascular health, behavioral interventions for adherence to dietary recommendations, and investigating nutritional risk factors for kidney disease and related cardiovascular events. In addition to Dr. Anderson's keynote address and graduate student oral and poster research presentations, our event also features a DNS faculty symposium. Faculty speakers will include Dr. John Erdman, Professor Emeritus of Nutrition and Food Science; Dr. M. Yanina Pepino, Associate Professor of Nutrition; and Dr. Hans Stein, Professor of Nutrition. "

 - *Reviewer's Notes:* Line item 1 violates Services Standards: non-essential equipment (ie. food). If asking for food, should be a Programs Application as well. Line item 2 violates Services Standards: vehicle rentals
 - *Connection to Mission:* The requested amount for food and transportation directly supports IGNITE @UIUC's mission of commitment to diversity, inclusion, and empowerment. By providing food for general members, the organization will be better able to facilitate a welcoming environment for participants during program sessions, as well as foster community and collaboration. Additionally, allocating funds for transportation ensures accessibility, allowing a broader representation of students to engage in IGNITE's leadership development opportunities (i.e. trips to Springfield, IL, and Chicago, IL, networking events, and leadership programs). Both components are integral to realizing our mission by creating

an inclusive space that empowers underrepresented voices, fosters leadership skills, and enhances political engagement on the University of Illinois Urbana-Champaign campus

 - *Description:* General body meeting supplies
 - *Reviewer's Notes:* Out of funding period
 - *Event Description:* Our general meetings are every other Tuesday at Lincoln Hall meeting at 7pm. They allow our members but also anyone on campus to come and learn about Habitat and its mission while keeping a fun, safe environment. Additionally, we often have speakers come in to discuss housing insecurity, tips for new homeowners, and even learning about the process of how homes are built. Sometimes we also collaborate with different RSOs that have similar missions. This specific application is for a digital ad informing students of our 2/6 general meeting so it's not a recurring program for this application

 - *Reviewer's Notes:* Incorrect application type
 - *Event Description:* In each general meeting, we will first explain and inform the members about the different cultures of Ecuador and the different traditions and languages all around

the country. This way the members of our student organization feel welcome when they're represented. From this we create a safe space for our members to feel included because they're in a campus where there aren't that many Ecuadorian students. After this we usually do an interactive activity with the members that represent the culture of Ecuador. At the end of the meeting, we observe the meaning behind what each member did and how they portrayed Ecuadorian culture

- *Reviewer's Notes:* Program is unrelated to the organization's mission and purpose. As such, I recommend that SORF denies the application
- *Event Description:* For our mental health awareness educational event, we plan to do a presentation about healthy habits for finals, do standing yoga as a way to relax, and finish the presentation by talking about the correlation of mental health and housing insecurities to bring it back to our mission to educate the community on our mission at Habitat. This will happen around April 25th at one of the ARCs multipurpose rooms. It will be a 1-1.5 hour event and one of the activities there will be making DIY care packages to then bring home to help relieve the students of Finals stress at least a little bit. These packages will consist of tea bags, bath bombs, ChapStick, etc. If this is considered "honoraria/gifts" we will completely understand and rescind that portion of the application. We weren't sure if it fell under that category since it is necessary for the program and it will be an activity and not just given away, but the lines can be blurry

 - *Reviewer's Notes:* These items are not fundable by SORF Standard
 - *Event Description:* Our event is a weekly basketball training session on weekends followed by lunch and team bonding games. Every weekend, our team will practice at the ARC basketball courts, after practice we will have lunch together, normally a hot pot meal. We would buy fresh ingredients from the market like meat, vegetables, and drinks (water, juice, etc). The meal is to provide a balanced diet after training, since the intensive training normally lasts for 2-3 hours. Lastly, the team bonding event would be watching basketball film, playing board games, or socializing between the team members which would be hosted at one of the team member's apartments on campus. Our weekly event consists of athletic training and cultural learning

- *Description:* Project-related parts
- *Reviewer's Notes:* Incorrect application type
- *Connection to Mission:* The following items will allow us to assemble our two projects this year: A dual axis photovoltaic (PV) system and a modular solar powered drone. InSPIRE's goal is the promotion of renewable energy through education and demonstration. The dual axis PV system directly generates power through its solar panel and allows people to see how solar energy works. In addition, our members will gain valuable experience with solar panel systems when assembling the PV system. The modular solar powered drone will have a solar powered charger, which would allow it to fly when other sources of power might not be available. Another PV system is required to run the solar powered charger, so more materials to make a PV system are required. This demonstrates to people that solar can be used to power other things, not just large-scale power production

 - *Reviewer's Notes:* Out of funding period
 - *Connection to Mission:* Part of Delta Sigma Pi's Mission Statement is to "encourage scholarship, social activity and the association of students for their mutual advancement by research and practice". The requested items relate to our Mission Statement because the attendance of the LEADS Provincial Conference allows our President to "research" leadership new skills and other Chapters rules and bring the knowledge back to our campus Chapter to put it into "practice" as mentioned in the statement excerpt. Having the ability to attend this Conference will increase the success and stability of our chapter since we will be in a good standing with Nationals and be able to implement newly learned information from it that will improve the scholarship, social activity and mutual advancement of our members/students. We would strongly appreciate the funding for the hotel, transportation and registration cost for the LEADS Provincial Conference so that we can allocate our other resources to the Cystic Fibrosis Foundation and holding more community events on the UIUC campus

- *Description:* Food for day-long certification course and exam
- *Reviewer's Notes:* Food is unrelated to mission and purpose of student organization and the applied-for program. I recommend that SORF denies the application
- *Connection to Mission:* This event takes place over 3 days from Friday, March 29th through Sunday, March 31st. On Friday, it will take place in the evening from about 5 pm to 9 pm (tentative). On Saturday and Sunday, it will start in the morning around 9 AM (tentative) and run nonstop until the evening (around 8 pm tentative) with a short break for lunch. The event will have an instructor teach a class of close to 30 UIUC students (expected) in a classroom in the Transportation Building on campus for these 3 days in preparation for an exam held on Sunday. This exam and course are both necessary to obtain the Lean Green Belt certification, an industry-recognized certification among professionals in the field. Course content will cover various terminology and standard methods associated with this field and course. We are requesting funding to cover the cost of food as students will be learning from early morning to late evening, and we would like to provide lunch/meals for these students. If we do not provide meals, then students will likely leave and miss out on the certification or will struggle to pay attention due to hunger. We would like to be able to provide them with a meal so that they can benefit properly from this program over the ~8-9 hours that it runs in the day

 - *Event Description:* The graduate student art history symposium "Perpetual Upkeep" will feature research presentations that interrogate the relationship of art and maintenance, including works and practices that make visible the upkeep of dominant cultural structures and technologies. The theme considers how historical infrastructures maintain(ed) structures of power, and how the conflicts and crises of today have their structural foundations in the past. In effect, Perpetual Upkeep positions emergent events not as unprecedented disruptions and catastrophes, but as the effects of planned systems, their maintenance, or, conversely, abandonment, and targeted destruction. The symposium will be held on April 4-5, 2023, at the Art & Design Building on campus, and will feature research presentations by graduate students from UIUC and other universities. The event is free and open to UIUC students and the public. Deanna Ledezma, PhD, will serve as both the symposium keynote and feature as part of the Art & Design Visitor Series. Dr. Ledezma's research looks at the position of family photographs in Latinx culture, including the complexities that come with including these private images in public work. Her 2020 Art Journal article "Regarding Family Photography in Contemporary Latinx Art" is a significant contribution to scholarly literature on vernacular and family photography. Her recent research and curatorial work have focused on Chicago-based artist and teacher Diana Solís. Dr. Ledezma's work with Solís produced the recent exhibition Contigo, Diana Solís at Co-Prosperty (Chicago) cultural center and gallery

- **App No. 167- Saudi Students Association**
 - *Description:* Saudi Association is requesting funds for food during their "game night"/ weekly meetings
 - *Reviewer's Notes:* They describe the event occurring as often as "weekly" in someone's "apartment"; therefore, it is safe to assume it is not only not open to the general public but comes off as more as a service of general meetings. SORF cannot fund general meetings let alone catering of non-culturally specific related items. Therefore, I recommend we deny this application request
 - *Event Description:* These are events held throughout the semester other than our six big events. Examples include board game nights, family feuds, and similar events. In the past, we've had these almost every week that doesn't hold a big event. It is usually set at a

common room within one of the student's apartments, and hence all the funding requested is for catering food. Through these recurring smaller events, we aim to make Saudi students feel at home, foster new friendships, and provide a welcoming and engaging environment, and a friendly and inclusive setting. Having a community that has similar experiences, views, and, most importantly, mother tongue gathering every week improves the college experience for almost everyone, which is our goal. But also opening up these events to other students from different RSOs (like MSA, ASA, ESA, and otherwise) as well as to the broader campus will provide a fun environment that acts great opportunity to foster relationships between our Saudi students and the broader UIUC community (and everyone likes pizza!)
